## Features

- Decorative Element:** Solid high temp, UV resistant composite with open aperture; frosted interior diameter, polished exterior and machined facet along bottom edge.
- Die Cast Construction Ring:** Exterior edge of construction ring is visible, satin aluminum finish matches diameter of decorative element for a flangeless appearance.
- Integral Reflector:** 16 ga. aluminum, 50° visual cutoff to lamp and lamp image. Decorative Element is mechanically attached to reflector via die cast ring. Reflector is specular clear for best performance and aesthetics.
- Cover Glass:** 3" Evolution contains high temperature soft focus lens. 4" Evolution contains high temperature perimeter frost.
- Trim Kit:** For 3" and 4" Evolution, trim kit, reflector and decorative element ship complete.
- Frame-In Kit:** Specified separately. See Trim Kit Specification Sheet for details.

## Mechanical

Decorative element is mechanically secured to the die cast construction ring and the integral reflector from the factory.
